

REACHING FARTHER - The State: Columbia, South Carolina's main newspaper

Eliminate household clutter with Attic Trac Plus, an innovative storage system designed for attics and other hard-to-reach storage spaces.

The platform and wheel-track system allows you to stack boxes and then slide the platform down the track into the far reaches of a storage space. To retrieve stored items, pull on the Attic Trac Plus cable to slide boxes forward.

Each Attic Trac Plus assembly is 8 feet long, providing 4 feet of storage space stackable up to 4 feet high. Install using a tape measure, pencil and a Phillips screwdriver. It's \$79.95 at [www.attictrac.com](http://www.attictrac.com).
